 SATURDAY, JUNE 5, 1875.
 NORTH ONTARIO.

The trial of the election petition in North Ontario, which has resulted in the making of that model Grit Mr. Thomas Paxton, has disclosed, beyond the usual amount of corruption practiced by the elevators of the standard, a nice little game of intimidation in the name of the Crown Land Department. One Mr. Donald Bruce, who is known as a wealthy and ardent Reformer, was particularly active in this manner of securing a free expression of the opinions of the electorate. It seems that twice before the day of the election he endeavored to coerce a man named George Wharman, a settler on the Crown Lands, and who at the same time was heavily in arrears for his lot; but failed to shake his intention to vote for the Reformer, the Opposition candidate. Finally, on polling day, Mr. Bruce called on Wharman, and after, as the evidence showed, pleading with him, but to no purpose, made the manfully threat, as the witness "swears," "The Government will be sharp after those who are in arrears for the payment on their land and do not vote for supporters of the Government; such persons are likely lose their 'land'." Very justly, this forms a principal reason, in Judge Wilson's opinion, for the violence of the election. Coming from a "corrupt Tory," this threat would have been in the highest degree reprehensible, but from a pure and unimpeachable Reformer, it is beyond measure contemptible. It is a pity that offenders of this class should go unpunished; justice demands the sooner the law takes cognizance of such cases the better.

The other branches of the case are no less interesting, as is shown by the following summary of the judgment. The principal charges were as follows:

1. The bribery of Nicholas Tappin by the respondent himself, or by him through his agent, Charles Marsh.

2. The bribery of Thomas Hogg by the respondent himself, or by him through his agent, Charles Marsh.

3. The intimidation of George Wharman by the respondent, or by him through his agent, Charles Marsh.

4. The intimidation of George Wharman by the respondent, or by him through his agent, Charles Marsh.

It appears that Hogg sold wheat to Marsh, who was the owner of Paxton mill, for the purpose of securing a vote for the Reformer. Marsh, who was a wealthy and ardent Reformer, was particularly active in this manner of securing a free expression of the opinions of the electorate. It seems that twice before the day of the election he endeavored to coerce a man named George Wharman, a settler on the Crown Lands, and who at the same time was heavily in arrears for his lot; but failed to shake his intention to vote for the Reformer, the Opposition candidate. There is a striking coincidence of opinion between this good lady and the Hon. J. O. Curran—another "true reformer." It is almost evident that the best of them thought to vote for those that govern them, and that those working on the Welland Canal who did not vote for him, "their hands might be clean." The lady, who was able to break the spirit while keeping to the letter of the law, is eminently instructive as a specimen of Grit morality.

Belleville, May 3, 1875.

210,000, whilst their own assessment at \$2,000,000.

Mr. Graham could see no good in making a change, although Sidney and Thurlow had been valued in the spring, and the ground was bare, but the quality of the crops growing and could not see in the stumps and stones, all of which was in the front of the house.

Mr. Flint contended that if there was any wrong done, it was the fault of the Thurlow assessors, and not the County Council. He would be glad to help Sidney or Thurlow, who were continually appealing for reductions; but he could not see how they could do it. All property ought to be assessed, but in Sidney he assessed that six chases factors were exempted from taxation, so it was no wonder they did not come up in their valuation as they should do, as surely these chases factors were worth something.

Thurlow could not see the value of the property assessed to Belleville, from the assessment of last year. He hoped that the land value would be doubled this year, which would place it in a better position in the eyes of the people abroad, without adding a cent to taxation. People at a distance looked at these things, and we ought to show ourselves in our true and proper position.

Mr. Anderson said that Tyndings was fairly assessed, of which he gave some instances.

Mr. Ashley urged for a reduction of \$80,000.

Mr. Wood was willing to give a reduction to \$1,200,000, and at the same time to double the equalization throughout, as proposed by Mr. Flint, and he moved accordingly.

Mr. McLaren, in answer to Mr. Wood, said the assessment of Tyndings had been increased from \$700,000 last year to \$1,600,000 this year.

Mr. Rose thought the old \$40,000 would be struck off Sidney.

Mr. Hagerty contended that Huntingdon had more reason to complain than any of the other Townships in the County.

Mr. McKim thought that the equalization could be effected in the equalization, taking into account the information which was now in possession of the Council.

Mr. Wilmet approved of the idea of doubling the equalization of the County.

Mr. Flint felt sure that this would have a good effect.

Mr. Flint thought that if the equalization were doubled now, it would, on the face of it, show an extraordinary degree of prosperity during the hard times, and cause a rush here of more people than we could support.

Mr. Walker said there was but a difference of \$10,000 between the statements of the Reeves of Mado, and Thurlow, and as the Reeves and Deputy of Thurlow promised to be able to show that amount, it could be no harm to credit it to them.

Mr. Hudson said they had in Thurlow, and he spoke after the reading of the roll, last property to the extent of \$60,000, and therefore, be nothing more than with Mr. Hudson's remarks.

Mr. Rose contended that Sidney ought to have a reduction on account of part of that Township having been taken into the village of Trenton.

Mr. Hagerty said if reductions were to be made, he should move for a reduction of \$60,000 on the equalization of Huntingdon. He suggested that perhaps Thurlow would accept \$1,105,000.

Mr. Wood accepted this, or was willing to give the representatives of Thurlow an opportunity to make a further investigation and report to the Committee in the morning.

After some further discussion, the motion was about to be put, when

Mr. Craig contended that Stirling is assessed too high, and had been for several years past.

Mr. Ashley agreed with Mr. Craig.

Mr. Wilmet contended that the resolution be adopted.

Mr. Craig moved that the equalization of Stirling be reduced to \$160,000.

Mr. Wood, whilst agreeing that Stirling is now equalized too high, yet did not see how they could reduce one municipality without taking similar action in other cases. A fair assessment had been made of this year, which might have the effect of making changes next year.

Mr. Pearce seconded Mr. Craig's motion.

Mr. Hagerty moved the reduction of the equalization of Huntingdon by \$60,000—Not seconded.

The original motion was then put and carried, and the Committee rose and reported—Adopted.

The Warden read a letter from Charles Hyde, late turnkey in the goal, asking pay up to the 2nd of June.

On motion of Mr. Wood, the letter was laid on the table.

Mr. Pearce gave notice of a by-law to legislate and establish a certain road in Marmora.

ROADS AND BRIDGES.

Council went into Committee on Roads and Bridges. Mr. Walker in the Chair.

The County Surveyor's report was taken up and read. The following is a summary: Three new bridges have been built, namely, at Harvey's, Seymour's and Boyne's creeks. The bridge repaired were these: Minto's, at the mouth of the Boyne, at Carleton's, Carleton's, Collins' and Finley's.

The following will require repairs: Chisholm's Rapids, Chisholm's (in Hungerford), Burns' bridge on the River Road, the bridge at Hartsville, Collins', Trenton, at the R. O. Church, Tyndings, Tweed bridge built higher up the stream, Moore's bridge on the road from Stirling to Wellington's Corners, and the bridge on the road from Mado to Hazzard's Corners.

An improvement in the road between Hamiltonville and Roanin can be made by clearing out the logs and trees below Park's Creek Bridge. A broken bridge in Chisholm's bridge has been ordered to be repaired.

The road on Cox's place in Hungerford has been staked out, and the side changed so that only one County bridge will be needed, instead of two. Mr. Cox demands the bridge and \$100 as compensation for the bridge and the land. I have examined the boundary line road between Sidney and Murray, and find that the whole will cost \$2,500 per rod to make a good passable road. The road by the river can be made for a less sum, but it is one mile longer. Owing to the high water I have not been able to make an examination of the bridge line in Sidney. I would wish the time extended until October. Four good sites can be selected for a bridge over the river in that vicinity. A house would be given a bridge built at Gordon's mill. The boundary line between Ravelton and Seymour has been examined with a view to making a road, but it was found justed to the east, the cost of a construction of which will average \$1,750 per rod, and I would recommend that this line be adopted as part of the boundary line between Hastings and Northumberland. On the Seymour road, if the line be lowered and the cutting placed at the base, a good passable road can be made for about \$100 and the statute labor. A good road can be made at Boyd's hill for \$300. Mr. Shannon demands the old road and \$60 as compensation for the road passing around Shannon's mill. A bridge at Millbridge will soon require to be rebuilt. The road in the vicinity of the Madoe boundary is rough; north of that it is in a very bad condition. On the new line road I found 22 loads in the excavated line. A number of farms have been deserted on account of the bad state of the roads. The County bridges are recommended to be painted, and the plankings to be tarred and painted.

Committee rose, reported progress and asked leave to sit again—Granted.

Council adjourned until 10 o'clock a. m. to-morrow.

THURSDAY, JUNE 10, 1875.

WEST ELGIN.—A scrutiny of votes in the West Elgin case given by a majority of eight votes. All further proceedings were stayed.

NO. 10, CURRIE.—The Liberal Conservative No. 10, Currie.

MIRAGE.—The *St. George's Star*: "On Sunday last, the state of the atmosphere was such that the south shore showed quite plain, and present local point looked up as large as though only a few miles distant."

NO NOTICE.—The *Globe* referring to the rumor that Mr. Gordon Brown wanted the Hamilton Shrivley, says: "Mr. Gordon Brown has never asked for any public office, and there is no place in the gift of either Government that he would accept."

NO DILL.—The charge of indecent assault on a child, against Jas. Hume, miller, engine driver, of this town, was made the Grand Jury at Brockville, on the 9th. "No bill" was returned. The general feeling in Brockville is that it was an attempt to levy black mail.

VIOLENT STORM.—Paris in France, was visited by a violent storm on the 9th inst. Thousands of chimneys were blown over, and the traffic was wholly suspended in the streets. In the Pyrenees, eleven persons were killed. In Paris alone the damage amounted to 11,000,000 francs.

DOMINION DAY.—The *Chronicler* says: "Dominion Day is likely to be celebrated in Ontario this year in lively style. Our farmers have made a start in the matter, and they never do things by halves. It is expected that more than 100,000 people will be present at the Dominion Day festival in the city of Toronto."

NOT SUCCESSFUL.—The *Ottawa Citizen* says: "The following telegram has been received from London, England: 'Sir Hugh Allan has not been successful in his effort to raise the money necessary for the Northern Colonization Railroad. He leaves for Canada to-morrow (Thursday).'"

RHAGADOZO.—In alluding to Blake's brigandage at Walkerton, on Wednesday, when he announced that he would endeavor to break up the lawless element of the county, the *Examiner* of Canada, and any other power which might attack the London Free Press says: "But the people of Canada have not as yet made any move to break up the lawless element of the county."

At the request of the Institute, Mr. Gardner agreed to take the subject up at the meeting.

The next subject was the method of teaching Latin to those who are just beginning this study, giving a practical method of teaching the three great classes of plants, and to distinguish them by the place of growth of the plants. At the request of the Institute, Mr. Gardner agreed to take the subject up at the meeting.

Sir John and his Transducers.

As time rolls round, and men begin to use their power of reflection, they discover what has been long known to all who have watched the political life of the country. It is a fact, that Sir John is a professional politician, rather than the practicing of that virtue. This fact has at last dawned upon the mental vision of the people, and the result is a general feeling of distrust towards Sir John and his Transducers.

Grand Lodge Frontiers Boys, B. A.

The annual meeting of the above order took place yesterday. There were about thirty members present from all parts of Ontario. The meeting opened at 2 p. m. and adjourned until 8 p. m. After the transaction of business the election of officers was proceeded with, the following being elected:

Bro. John C. Hardy, G. M., Kingston.
Bro. W. D. Madden, Senior, D. G. M., Toronto.

Bro. John Scott, Jr., D. G. M., Toronto.
Bro. P. J. Howard, Grand Chaplain, Amherst Island.

Bro. S. Hooper, G. Sec., Newburgh.
Bro. R. Bell, Jr., Sec., Kingston.

Bro. James D. P. Meredith, Lecturer, Toronto.

After the installation of the officers elect, the Grand Lodge adjourned to meet again on the second Tuesday of June, 1875, in the city of Toronto. This has ended one of the largest and best attended meetings of the G. L. for many years. The order is now in a better position than at any previous time in its history. The Grand Lodge have been during the past year, very successful in their work.

Can't Help It.

"My dear," said Mrs. Harney to her little Johnny, "why are you so sad about your lesson? Your teacher tells you that they are almost always Johnny's." "Mamma, I can't help it," was Johnny's reply, in a cross, impatient tone. "You mustn't speak to me in that way," answered his mother, reprovingly. "Well, I can't help it," said the little fellow, "because I am sick of learning about the old lessons." "What do you mean?" asked Johnny, at once interested. "I mean that if you let Can't-help-it have his own way, everything beautiful in your life will be spoiled. Can't-help-it grows stronger and stronger every time you yield to him; and by and by he will be stronger than you are." "But he isn't a monster that I can see," said Johnny. "No; you cannot see your soul, and you cannot see the monster that try to hurt your soul; neither can you see your soul's true friend."

"What are my soul's friends?" "I will help is one of them, and a strong, good friend, too." "What are my soul's friends?" "I will help is one of them, and a strong, good friend, too."

"What are my soul's friends?" "I will help is one of them, and a strong, good friend, too."

"What are my soul's friends?" "I will help is one of them, and a strong, good friend, too."

Daily Intelligence.

SATURDAY, JUNE 12, 1875.

Town and Vicinity.

THE HOTTEST DAY.—Yesterday was the hottest of the season, the thermometer registering 83° in the shade.

POLICE STATION.—There were no prisoners in the cells last night, the town being quiet at the present.

COURT COURTS.—The business of this Court was concluded last night about 5 o'clock, at which hour the Court adjourned.

COURT COURTS.—This body concluded its labors this morning, after a session extending over five days. A large amount of important business has been transacted.

TOWN COUNCIL.—A regular meeting of Council will be held on Monday evening, when there will be a month's business to dispose of, no meeting having been held for four weeks.

SALE OF A SCHOONER.—Capt. Culbert, of Colborne, has purchased the schooner from Messrs. Rathbun & Son for \$7,000. The vessel is of 250 tons register, and is nearly new.

RIFLE ASSOCIATION.—The Town Council has granted the sum of \$40 to aid the Hastings Rifle Association in fitting up the new range, over which it is expected the annual matches will take place in August.

RELATION TALK.—The trial of the petition against the return of Mr. Wells to the Local Legislature will take place here on Thursday next. Being the first case of the kind ever tried here it will no doubt attract a great deal of interest.

RIFLE MATCH.—The challenge match for the Cup of the 49th will take place on Monday. A close and exciting contest may be expected, as all who will take part in the match are veterans of approved excellence. Should Private Tennant again win the cup, it becomes his personal property.

FOR THE LOWER PROVINCES.—Messrs. Ashley & Hazard, manufacturers of Fraser's Gang Cheese-press, have shipped two of their presses to Grand Pré, Nova Scotia, to fill an order from that place. They also do a large business in the same line in the Province of Quebec, where cheese manufacture is attaining to considerable prominence as an industry.

MEEN NARRER.—If any part of the town requires sprinkling, it is the Market square. Here where hundreds congregate on market days, where butter and honey, and all kinds of produce are exposed, dust should be kept down. An hour's good sprinkling in the early morning and again early in the afternoon, would do the work. Will not the authorities see to this a attended to?

THE "DR. BOTTS."—The "Dr. Botts" mentioned as one of the passengers of the Fishery from Belleville, we presume is Dr. A. B. Botts of Kingston, whom the "News" says was one of the passengers and was on his way to England to complete his studies at Birmingham Hospital. On enquiry at the Agent's office here, we found no ticket was issued to passengers by the ill-fated steamer.

RAID.—A heavy shower of rain, which was of but short duration, however, fell at an early hour this morning. The accompanying thunder was not very heavy, but the lightning was vivid. The rain fall, though not sufficient to supply the needs of the country, will yet have a highly beneficial effect upon growing crops, which, in spite of the late drought, have made good progress.

THE SHAGBARK.—Mr. E. A. McDowell's Company, which was so successful in the "Shagbark" here a short time ago, is to revisit the town, playing in Metropolitan Hall on Friday and Saturday evenings of next week. The troupe has been reinforced by the addition of Mr. Frank Murdoch and Mr. W. F. Devere, both talented actors, and in addition to "The Shagbark," will produce the celebrated drama "Divorce," which had a long run at the Fifth Avenue Theatre, New York.

WANTED.—For two years past a new sidewalk has been promised the residents on the east side of George Street, from Hotel to Myers Street, and yet nothing has been done to supply it. Why is this? It is in about the worst condition of any sidewalk we know of. The petition required has been done by residents, using whatever boards could be found, and of course is not very substantial. Just now there are some bad spots that require looking after, and the walk should be renewed and made wider.

PULLED APART.—An old wood screw, laden with ten cords of wood, was literally torn to pieces in Big Bay on Thursday night. It appears that a tug was passing by, and the screw men asked for a friendly haul, which was given. Full steam not being put to the tug, the screw was pulled apart, and after a few minutes' experience of the greater power given to

the tug by crowding on a full head of steam, the screw was pulled apart and fell to pieces. The wood was scattered in all directions, and the mariners had a night out, on a half sunken diver in the channel, with visions of steamboats running on the water, and that dream. They survived till morning without mishap, and now they are home.

LIVELY TIMES.—A number of subpoenas to witnesses in the West Hastings Election case were served to-day. The constable, to the local justice, seemed abashed at the job.

LAID THE DUST.—The shower last night laid the dust thoroughly, and the plague of dust was abated for one day at least, much to the comfort of the crowd in front of the courts who thronged the streets.

NEW BUSINESS.—Some of our gardeners, not having any fear of cholera morbus, tempted our citizens with fine specimens of this fruit this morning. Ten and fifteen cents each was the modest price asked.

OCULIST AND AURIST.—It will be seen by a card in another column that Dr. Stewart, the well known Oculist and Aurist, is to visit Belleville next week. Dr. had a large number of patients on his former visit to Belleville, some years ago, and was very successful in his treatment.

EXTRAORDINARY EXAMINATION.—There were thirty-one boys and girls in town who sat for the necessary examination for admission to the High School. The examination of the papers has not yet been completed. It is thought that a very large majority of the applicants will prove successful.

THE REAL STREET MATTER.—We find the following reference to this matter in the Chancery report to-day's Mail: Belleville, June 11.—McLennan, Q. C., moved for an injunction to restrain obstruction of street in Belleville. Crooks, Q. C., asked for an enlargement. Stalls till Tuesday.

DOGS.—The number of dogs registered up to date is 44, which is a very small proportion of the number of dogs in town liable to taxation. On and after Wednesday next, the Police will proceed with the work of destroying unregistered dogs, as provided by the By-law.

BASE BALL.—The game of base ball seems likely to be popular here this season. A practice game was played yesterday afternoon, when the members of the Belleville Club acquitted themselves in good style. In a few weeks, if practice be kept up, the Club will be in good trim for undertaking a match.

POLICE COURT.—No business to-day. An unintentional injustice was done Mr. Geo. Colburn in Wednesday's report; his offence, of unceremoniously beating a horse, being the causing of the removal of a horse from a place in dispute between Messrs. Colburn and J. Cook, by giving the animal a slight blow to make it move.

CHARGE OF TIME.—The steamer *Uria* now leaves Pictou at 1 o'clock p.m. daily, instead of 1:30, as previously. This affords passengers an opportunity of taking the evening train for the West at Belleville. The *Uria* has proved a great convenience to the people of Pictou and Truro, and we are glad to learn it is patronized liberally.

BRETHREN CLUB.—The number which attended the entertainment given by this organization last night was so small that, after playing three pieces, the audience was dismissed, and the money returned at the door. We have had in town a number of amusements lately, but it is not pleasant to record such a result in the case of so excellent a set of musicians as compose the Brethren Quintette Club.

THE MARKET.—There was a large attendance on the market this morning, and a bountiful supply in the family market, including seasonable vegetables of all descriptions. Prices generally were without change, the only alteration to be noted being a decline in cattle to 45¢ per bushel, and in pigs to 55¢ to 60¢. Wool was 16¢ a lb. in the city, and 14¢ per pound, the market for this product being in a rather better condition than it was a week ago.

YACHT CLUB.—We understand that it is in contemplation to hold, during the month of July, a cruise of all the yachts on the lake around Lake Ontario, in which it is probable that the *Danvers* and the *fun* will take part. The fleet mean to keep together, the faster vessels starting first for the start.

IT IS ALSO INTENDED to have a series of regattas during the cruise, one of which would be held here. We trust that the contemplation of such a cruise will do much to bring our local craft as good as will take part in it. A regatta in which the whole fleet of Ontario would take part would be a fine sight, and it is to be hoped that the people of the town and neighborhood will have an opportunity of witnessing one over the excellent course on Big Bay.

CHEAP EXCURSIONS.—Think of going to Niagara Falls and back for the paltry sum of Four Dollars. A train in the early morning by rail to Toronto, thence across the Lake by the splendid steamer *Rothney* (Curtis), enjoying the cooling breeze and delightful ride—then, to pay the monopoly, catch the railway and proceed through some of the finest scenery to be found in Ontario, to one of the great wonders of the world, Niagara Falls. All this in one day—the second you can spend in viewing the great cataract and the famed sights around it, and the next return, reaching home at the close of the third day—the trip, except meals and lodging, costing only four dollars. Surely, a cheaper and finer excursion could not be found. Mr. Starling, knowing the worth of a train, has arranged for the excursion, and the next return, reaching home at the close of the third day—the trip, except meals and lodging, costing only four dollars. Mr. Starling, knowing the worth of a train, has arranged for the excursion, and the next return, reaching home at the close of the third day—the trip, except meals and lodging, costing only four dollars.

THE DESTRUCTION OF LIFE BY AN EARTHQUAKE.—10,000 PERSONS KILLED.

HAVANA, JUNE 11.—News has been received here by Mr. S. Thomas of a terrible earthquake which occurred in the Valley of Guatima, on the Venezuelan frontier. It is reported that 10,000 lives were destroyed by the calamity.

SMALL-POX IN CUBA.

DEATH OF A TROTTER HORSE.

Discovery of a Burglar.

Another Black Hills Expedition.

CLEVELAND, O., June 12.—In the pigeon shooting tournament yesterday, the two of the previous six days were shot off. Mr. Hilliard, of Wadsworth, Canada, took the year of \$50. The prize offered for the day was \$1,000; 2nd, \$200; 3rd, \$100; 4th, \$50; 5th, \$25. There were 123 entries. The first prize was won by H. J. Wilson, of Cleveland, who killed twenty-five birds without a miss. Thirty men having killed nine birds each at 20 yards, they competed for the 2nd prize, which was won by T. T. Quinn, of Galion, Ohio, who shot 24 birds out of 25. Dickson prevented the shooting of other birds.

HAVANA, June 11.—Advice from St. Thomas, June 8th, report that all is quiet in Haiti since the suppression of the late conspiracy.

Small pox is raging with virulence in Ponce, Porto Rico. Victims from there are quarantined in all West Indian ports.

The Spanish man-of-war "Isabella Catolina" conveyed the Uruguayan bark "Ping" thirty miles from the coast, and allowed her to proceed wherever her commander wished.

Another burglar was discovered last night in a house in the immediate neighborhood of that of Schute, who was shot a few nights ago. The discovery was made by the wife of the occupant, who feared to alarm her husband.

The steamship *Colon*, from Aspinwall, and *C. F. Finch*, from Antwerp, have arrived.

A Washington despatch, says the writer, who signs himself "A Christian Association Member," writes to the commissioner of Indian affairs, under date of Philadelphia, June 10th, as follows: "You may not be aware that an expedition leaves this city on Tuesday night, 15th inst., in several special trains, for the Black Hills. They number about three thousand persons, perhaps more, recruited in Massachusetts, New York and Pennsylvania, all well armed."

—For clematis take six eggs to one gill of cream, beat the eggs very thick, add gradually the cream, a little pepper, salt, and two tablespoonfuls of grated ham or a little chopped parsley, onion or celery seasoning, having ready a pan of hot fat, and fry to a light brown. When done fold one-half to the other and send to the table hot.

—The soft corn occurs between the toes and is produced in the same manner as the common corn, but in consequence of the moisture existing in this situation, the thickened soft skin becomes a source of infection and the corn is not so easily cured as the ordinary corn. The soft corn is relieved by cutting away the thick skin with a pair of scissors, rubbing the foot with a little of scabious, mixing it with the fish; thus touching it with a drop of fish's balsam. Charis, as an application for the cure of corn, is a remedy which should be used with great caution and would be better left altogether in the hands of the medical man. —A. Y. News.

—All preparations for removing superfluous hair are dangerous, especially so if there is any broken structure to be operated upon. The following is good, but great care must be taken in using it. These are parts of crystallized hydro-sulphuric acid, ten parts finely-powdered quicklime, and eleven parts of water. The acid and water are mixed together. Make into a paste with warm water and apply it to the place, previously shaved close. A bone or wood knife should be used to apply it with, and to remove. After removal use powdered starch. One or more applications may be made. —Cincinnati Times.

—A very good fence can be made by setting the posts very close and using half foot square, and spiking on bottom, leaving twice the thickness of the boards to be used between the latitudes and the posts. As many spikes must be used as the number of boards in the fence, driving them through the bottom into the post. The fence is made so that the lower edges of the boards are to come. Then twelve feet boards can be shipped in like bars, laying the fence up to the top of the next panel, and the fence will be found as substantial as if the boards were nailed to the posts, and there would be no need of a nail in a post. This fence is not so easily injured by frost as the ordinary board fence, there being no nail to break when the posts are moved by freezing and thawing. —Cor. Country Gentleman.

The years past the writer is correspondent of the *Journal of the Pliny* has been in the practice of clearing the sage plant from its insect, and often continues its ravages to a later date. These are little blue flies, which are nearly the color of the plant that it is sometimes difficult to fix their identity. This is, however, soon determined by the curling of the inside leaves a considerable time previous to heading. The conservative portion of those leaves being closely inspected, disclose often hundreds of the little insects, scarcely larger than the seed of the plant. The effecting the removal of these has been used for a number of years, with unfailing success. It is simply this: Take some dry ashes in a pan, and while the dew is on the plants in the morning sprinkle the ashes over the plants, being careful to carry the spread it on the inside of the curled leaves. Hickory ashes, or that of corn cobs, on account of the strength of the fly caused by the dew, are preferred. If well applied, it will not be necessary to perform the operation more than once.

When a man takes the wall paper out in the yard and beats it, then takes it down to the floor and tries to paste it on the wall, should he or his wife be given the custody of the children in the event of her gaining her suit for divorce? This is one of the weighty questions which arise from the dust and slop of home-economics.

—If you have any cooked corn leftover, make it into patties, and see how you like them. Take two or three tablespoonfuls of corn, and put in a tablespoonful of thick cream, a little salt and an egg, and enough of sugar and flour enough to make a soft dough. Take small pieces of the dough, roll them in flour, then in egg, and fry in hot fat. Mashed Irish potatoes fried the same way, minus the sugar, is a splendid way to cook over cold potatoes.

How LONG WILL SAID KNEEL—B. G. L. asks to what age do certain seeds survive "before they become valueless?" Much depends upon how they are kept. The practical point, and probably what our correspondent wishes to know, is the age to which they may be kept and still be sown with the probability of their germinating. Various tales of this kind have been published, and English and French authors differing widely. Of those mentioned by our correspondent, cotton and pumpkin are only safe for one year; carrot and sage for two years; cabbage and turnip for four years; beet, squash, and cucumber from five to ten years.

To KILL MILK-WORMS—W. G. Mathes, Okama, Minn., is a difficult work to kill in some places, in others it does not seem to be troublesome. The main trouble lies in the roots, which are long and penetrate deeply. It can not be eradicated by the labour and patience. If it is in large patches, we would now it often through the summer and plough the ground in the fall, carrying off the pieces of root brought up by the plough or harrow. If in small patches, we would dig out the roots with a spade. If prevented from sowing it will rot, but if the seeds are allowed to ripen, they will rotter widely.

THE subscriber having retired, and sold his interest in his business, immediate payment of those indebted, is about leaving town.

All accounts unsettled on the 10th will be left in Court for collection. Settlement can be made at the place of business.

DENTAL NOTICE.
THE subscriber having sold his practice to Messrs. Gilbert and May, takes pleasure in recommending them to his patients as young men thoroughly competent in every department of the profession, and would solicit the continuation of the patronage.

THE UNDERSIGNED HAVING succeeded to Dr. Relyea's practice, will call attention to their Painless system of extracting Teeth, by means of the Nitrous Gas (laughing) Gas, the safest and quickest method known. 100,000 administrations have had a single accident. Dr. Relyea's Nervous

TUESDAY, JUNE 22, 1875.

Town and Vicinity.

BAPTIST EDUCATION.—An adjourned

meeting of the Board, for the transaction

of general business, will be held this evening.

IMMIGRANTS.—On Sunday, a special

train passed west, carrying a large number

of immigrants, among whom were several

of the Memphites, who are bound for

Manitoba.

TO ADVERTISERS.—Advertisers who have

contracts are informed that new advertise-

ments intended to replace those inserted

must be in the hands of the printer by ten

o'clock in the morning, in order to secure

publication.

COLLEGE.—The distribution of prizes

will take place in Alameda College to-

morrow. The annual Commencement will

take place in the Town Hall at

2 o'clock p. m. Hon. R. J. Cartwright

and other notabilities have been invited to

be present. The annual dinner will take

place in the evening at 8 o'clock.

THE MAILMAN CASE.—Deputy Sheriff

Thompson received notice from the

Governor that the sentence of death

passed against Charles Mainard had been

commuted to imprisonment for life in the

Kingston Penitentiary. The prisoner will

be taken to his new home within a few

days.

GOING TO KINGSTON.—The Kingston

Express states that the Quinte Hook and

Ladder Company, of this town, will go to

Kingston on Dominion Day, they having

received an invitation extended to them

by the Kingston company to pass the day

with them. There is a strong fraternal

feeling between the Belleville and King-

ston companies, which it is to be hoped

will grow less.

MARCHMONT HOME.—A party of boys

expected out from the Marchmont home

this week, aged 12 to 15. A

large wooden building is being put up on

the Marchmont grounds for the accommo-

dation of the children during the summer,

that the work goes on as usual. All

expenses, accompanied by reference, to

be sent to Miss Bihlberg, Marchmont

Home, Belleville.

STRAINS "PICKED".—We learn from the

St. Catharines Times that the steamer

Picked is doing a good business between

Port Huron and Toronto. In announcing

this fact, the same paper takes occasion

to commend the courtesy of Captain

Morden and his purser. It is some satisfaction

to hear of a good boat in regular service

in so dull a season as this has been so

far.

BOATING.—The favorite amusement of

the day is boating, both sailing and row-

ing. Each evening the bay is dotted with

craft of all dimensions, from the racing

sloop down to the tiny shallop, and an

immense flock of birch bark canoes is seen

skimming the surface. The water is so

calm that the boatsmen can see the

amusement is a beautiful and pleasant

one, and we are glad to see it in so much

favor with the public. A better spot for

rowing and sailing than Belleville is

not to be found in the Dominion.

PICKPOCKETS.—Judging from the num-

ber of items in our western exchange

column, the operation of pickpocketing

is in that section, the "pickpocketing" fev-

er has invaded that part of the coun-

try in force, following in the wake of the

great cities. As yet none of them have

been heard of at Trenton, but it is some-

times to be found a note of warning, as in

these days of railways, the thieves travel

with the rapidity of a postchaise. There-

fore, be on the look out for pickpockets, es-

pecially if any circumspect case this way.

THE RESULTS.—All the preliminary

affiliations having been adjusted, the re-

sults of the annual election will take place

in Dominion Day, over twenty miles from

the city, which will be in full view of the spectators

on Manassas Point. The race will be

started at 11 o'clock a. m., from a buoy

anchored about the Point, thence the

sailing craft will stretch down Big Bay

around a buoy of the north shore,

thence across to another buoy towards the

south shore, (or vice versa, according to the

direction of the wind), thence around a

buoy, a mile west of the Point, thence

around the course to complete the distance

of twenty miles. This is an excellent

management and will fully test the boats

and the skill of the crews. The first prize

will be a handsome champagne glass, offered by

Messrs. George and St. Andrew's Societies.

The second and third prizes will be in

money, made up from the entrance fee,

which has been fixed at the low rate of \$4.

The race is open to all yachts not over 20

feet in length, and under capable manage-

ment, as it will, be, cannot fail to prove a

great attraction. Entries can be made with

the Secretary-Treasurer, Mr. Ralph Purdy,

up to the evening of June 30th. There

THE BANKS ON GUARD.

New York, June 22.—The second trial of

Mrs. Sarah C. Morgan, for the murder of

Magie Thummler, in Williamson, resulted

in another disagreement of the jury and they

were discharged last night.

A Washington despatch says three hundred

additional money order officers have been

designated by the post office department.

Wm. H. Wills, a holder of \$7,000 worth of

bonds of the Buffalo, New York & Erie Rail-

road Company, my brother-in-law, of which the Erie

Railway Company has guaranteed, and which

are secured by a second mortgage of the

Buffalo Branch, has commenced an action to

foreclose the mortgage.

Wm. J. Brown, the notorious counterfeiter

from Cincinnati, pleaded guilty in the Court

yesterday, and was remanded for sentence.

Merritt, June 22.—Brad Yarrowburgh,

founder of the Pacific coast mail steamer

Tenn, was killed on Saturday by W. Kinney,

his brother-in-law, in a quarrel growing out

of an old family feud. Kinney surrendered

himself to the Sheriff. He was wealthy

and an influential citizen, and the homicide

cases great excitement in the neighborhood.

LOUISVILLE, Ky. June 22.—It is understood

that Younger and James Brothers, who ex-

ploited at Omaha last October, are in Mis-

souri and Kansas have created such a sensa-

tion, are at present in Kentucky, anticipating

an attack. The officers of various banks in

the section where the desperadoes are lo-

oking have placed guards over their cash.

New York, June 22.—Last night at 12 o'

clock, the law allowed the Governor for sign-

ing bills passed at the recent Session of the

Legislature expired. Of 250 bills, the Govern-

or has reserved fifty, and has cut out about

30 items from the Supply bill.

"Don't Give Up; But Try."

A gentleman, travelling in the northern part of Ireland, heard the voice of children and stopped to listen.

Finding the sound came from a small building used as a school-house, he went near; as the door was open, he went in and listened to the words the boys were speaking.

One little fellow stood apart, looking very sad.

"Why does that boy stand there?" asked the gentleman.

"Oh, he is good for nothing," replied the teacher. "There's nothing in him. I can make nothing of him. He is the most stupid boy in the school."

The gentleman was surprised at this answer. He saw that the younger and sterner and rough, that the younger and more useful were nearly crushed. After a few words to them, placing his hands on the noble brow of the little fellow who stood apart, he said:

"One of these days you may be a fine scholar; don't give up; try, my boy, try."

The boy's soul was aroused. His sleeping mind awoke. A new purpose was formed. From that hour he became anxious to excel. And he did become a fine scholar, and the teacher, on a well-known anniversary on the Bible, a great and good man, beloved and honored. It was Dr. Adam Clarke.

The secret of his success was true knowledge; "Don't give up; but try, my boy, try."

The Grave's Voice.

TRANSLATED FROM THE GERMAN, BY ANTONIA

Such is the dream, and lost in anxious thought

My thoughts leave me to this lonely spot.

To whom belongs the full life's flower bed?

The dead?

Rate them in, my soul; why should they

Not? But I will leave them to their fate.

When the silence for them sweetest

From the grave.

See here, O man! where all thy path must

How far it leads, and how it ends.

Must it be so? Must it be so?

To death?

Where are the carmen who take life in

Trade with pain, or beat in high in

Those in whose hands the fate of

Unnumbered?

Madmen!

Where are the mighty who take life in

Who are the mighty who take life in

What reason the reason on your

Will?

The evening wind the sweetest is falling

Patience in dream, my added soul.

What are you? What are you?

The twilight falls, the path leads

To rest.
